

One platform, infinite possibilities

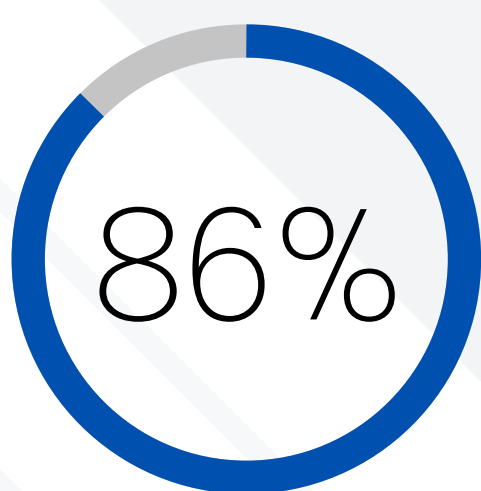

Grow your business and simplify IT with the Meraki platform

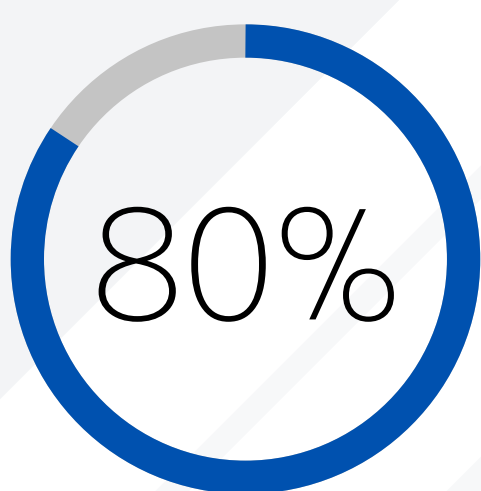

Migrate to the cloud-managed platform that offers infinite possibilities for your growing business.

How IT challenges hamper business growth

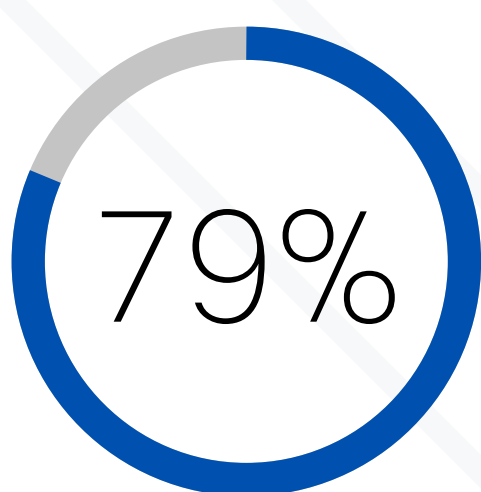

For too many businesses, IT is a bottleneck when it needs to be an accelerator.

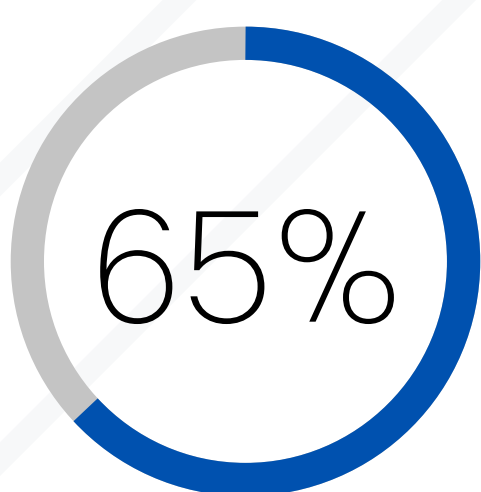

of IT teams are expected to deliver more with less

of IT is preoccupied with support and maintenance

of IT teams are asked to deliver outcomes faster

of IT teams have little time for innovation

Power business growth with the Meraki platform

Focus on growing your business, not managing IT. Build on the cloud-based Meraki platform, designed to scale and adapt easily to your evolving needs. Think of it as a unified foundation for all your networking and security needs. A platform approach simplifies management, reduces operational expenses, and helps you deliver exceptional experiences to employees and customers.

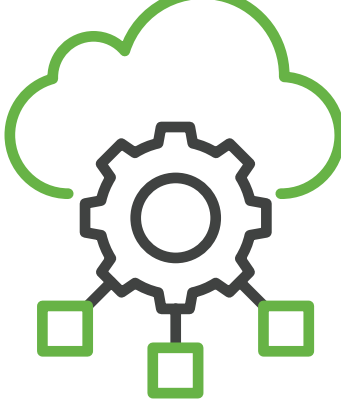

One platform, infinite possibilities with Meraki

Powerful, scalable, and flexible platform features give you a competitive advantage.

Infinite expandability

Easily build on the platform with Cisco Duo, Secure Connect, or hundreds of partner turnkey solutions available on the [Meraki Marketplace](#).

Simplified operations

Consolidate wireless, switching, security, routing, cellular backup, smart cameras, and IoT sensors on the platform, and manage everything from a single dashboard.

Increased efficiency

Augment IT teams with automated tasks, simplified management, end-to-end visibility, and AI-powered insights.

Industry-leading security

The platform is powered by Cisco Talos, which analyzes 550 billion threats per day. And Meraki MX blocks 25% more threats than the industry average.

Fuel business growth and innovation

The Meraki platform is designed to accelerate key business outcomes.

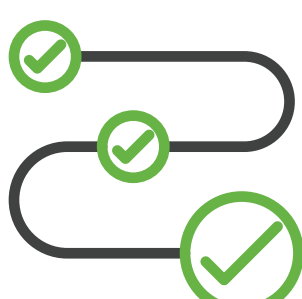

Empower hybrid work

Converge networking and security to increase employee productivity and give workers consistent, secure access from anywhere.

Expand and upgrade security

Protect employees and customers everywhere with scalable and fully cloud-managed security solutions, online and across physical spaces.

Strengthen business continuity

Bolster network resilience to maintain critical operations in any location with automatic WAN and cellular failover.

Deliver amazing experiences

Delight customers and empower employees in hundreds of new ways with solutions from Meraki ecosystem partners.

“Love the single pane of glass dashboard with visibility into our worldwide network. It’s easy to set up common features, such as client VPN, site-to-site VPN, and WAN failover.”

—Bryan McMullan
IT Senior Vice President, MarshBerry
