Ready to learn more about Sage 100 ERP and SQL licenses for your business? Please contact your Sage 100 ERP business partner, call toll-free **866-530-7243**, or visit: **www.Sage100ERP.com**

Sage 100 Premium ERP is compatible with the Microsoft SQL Server data platform. Customers have the option of obtaining Microsoft SQL Server 2008 R2 Standard edition from Sage as the Sage SQL Server Runtime Edition.

SQL provides high levels of performance, scalability, and security and a database that allows IT to be productive and efficient. The Sage SQL Server Runtime Edition comes with preestablished settings that streamline the Sage 100 ERP implementation process. Limited for use with Sage and Sage-related products, it is otherwise identical to the full Microsoft SQL Server 2008 R2 Standard edition.

Choose CAL or per Processor Licensing
Sage Runtime Edition licenses offer the same full capabilities as the Microsoft SQL Server 2008 R2 Standard and can be purchased per user or per processor.

- **Per User Licensing**
  If you plan to implement and run SQL with fewer than 20 users, per user licensing, or client access licensing (CAL), may be more cost effective for your company. *A minimum purchase of five users is required.*
  Suggested List Pricing Cost: $175
  Subscription Pricing Cost: $10 per month

- **Per Processor Licensing**
  If you plan on having 20 or more users, you may want to consider purchasing the per processor licensing model, which allows for an unlimited number of users.
  Suggested List Pricing Cost: $5,000
  Subscription Pricing Cost: $300 per month

Microsoft SQL Server Runtime Edition	Subscription Pricing*	Suggested List Pricing (SLP)*
Per User—CAL (min. five users)	$10 per month	$175
Per Processor	$300 per month	$5,000

Sage pricing may change at any time without notice.

New releases available to customers on Sage Business Care
Each time a new version of Sage 100 Premium ERP is released, customers current on a Sage Business Care plan who have also purchased Sage Runtime Edition licenses will receive the latest compatible release of Microsoft SQL Server.

No restrictions on performance, users, or database size
Sage SQL Server Runtime Edition is a fully functional version of Microsoft SQL Server 2008 R2 Standard edition, complete with tools and utilities, and should not be confused with the free SQL Server Express edition. The Runtime Edition has no restrictions on performance, number of users, or database size. The free Express edition is not supported by Sage 100 ERP.
