

Benchmark Insights

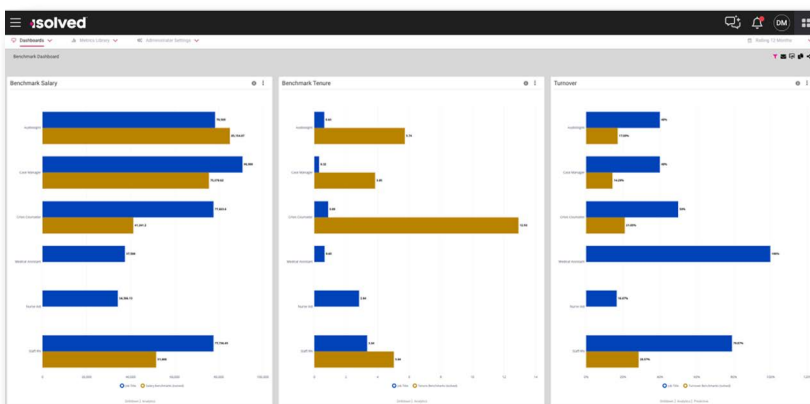

Market-Driven Insights Your Clients Can Use to Strengthen Talent Acquisition and Retention

Today's organizations need a clear understanding of market standards to remain competitive, especially when it comes to salary expectations, employee tenure, and turnover trends. Without reliable benchmarking data, clients often struggle to attract qualified candidates, retain top performers, and make confident workforce planning decisions.

isolated Benchmark Insights helps clients see exactly how they compare to similar employers, eliminating guesswork from workforce decisions. With position-specific benchmarks for salary, tenure, and turnover, clients gain actionable insights that support stronger recruiting strategies, improved retention, and data-backed people decisions grounded in real market trends.

isolated Benchmark Insights includes:

- Access to salary, tenure and turnover benchmarks
- Position-specific insights with optional filters for industry and state
- Aggregated data sourced from more than 8 million employee records
- Automatic quarterly benchmark updates with no manual refresh required
- Drill-down capabilities to compare benchmarks against internal roles
- Predictive modeling integration to forecast turnover impacts
- A scalable analytics foundation that supports long-term workforce strategy

Key Benefits:

Strengthen talent acquisition by using reliable market data to stay competitive in attracting top talent

Improve retention outcomes by identifying where internal trends differ from market norms and addressing risks early

Make faster, more confident workforce decisions using accurate, aggregated benchmarking data

Support long-term workforce planning with a scalable solution that automatically updates as market conditions change

Identify targeted improvement opportunities by drilling into role-level and employee-level comparisons

A Clearer View of Market Positioning

isolved Benchmark Insights provides clients with a dependable view of how they compare to similar employers. Position-specific data for salary, tenure, and turnover enables more informed decisions around compensation, retention strategies, and workforce planning.

Market-Based Data for Confident Decisions

Designed for today's leaders, isolved Benchmark Insights delivers a simple, intuitive experience that makes it easy to explore, understand, and apply benchmarking data to support informed, strategic decisions.

Built to Grow with Clients' Workforce Strategies

As clients' organizations evolve, isolved Benchmark Insights continues to deliver value through automatic data updates, scalable analytics, and flexible benchmarking capabilities that adapt to changing workforce and market conditions.

Help your clients gain the data advantage they need to compete for top talent and stay ahead of the market with isolved Benchmark Insights.
